

2021-2022 School Year

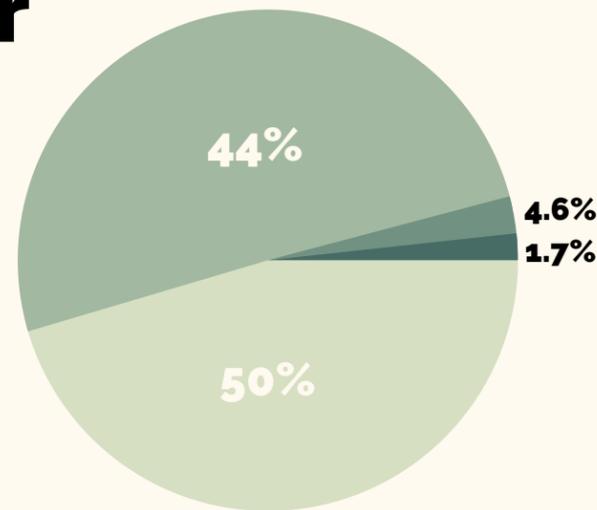

YOUTH SERVICES AT MOTHERS & BABIES

This school year marks the first since 2020 where we were able to safely re-enter classrooms and resume in person learning for most schools. Using everything we've learned since then, we were able to successfully deliver in person, virtual, and hybrid model education with the help of our amazing community partners. We've also been able to expand our social media platforms to reach more families outside of the classroom! Scan our codes (on the right) to check out more about our program.

Gender

- Female
- Male

113.5

Hours of Training Completed by Educators

79%

of students who completed a pre and post survey demonstrated that they had increased their knowledge after participating in one or more of our programs.

17%

of students our team saw this year participated in two or more of our comprehensive sexuality education and/or life skills programs.

“Our educator was wonderful! The program was very interactive and informative. The students learned much information and really enjoyed it. I am looking forward to working with your organization in years to come”

“Not only did the educator do a great job while she was here, after the students left she was able to target some of their needs and was willing to stay and listen to some of my concerns for each of my kids. Super impressed and grateful!”

What Our Community Has to Say About Youth Services

“The students really enjoyed the presentations. The educator is approachable, intelligent, passionate and gave the impression to both the students and myself that they love what they're doing. The program is able to reach diverse ability levels and that is a huge plus! I highly recommend!”

“I love the updates of the lay out of each program! I am beyond grateful to have your company as a resource to teach my high schoolers!”
